

Past meetings:

American Society of Limnology and Oceanography

Aquatic Sciences Meeting

4-9 February, 2007 Santa Fe, New Mexico

<http://aslo.org/meetings.html>

Special Session: The paradox of *Didymosphenia geminata*

Organizers: Craig Cary, Max Bothwell, Sarah Spaulding

New Zealand Freshwater Sciences Society

27 – 30 November, 2006 Rotorua, New Zealand

A didymo session is being planned:

http://freshwater.rsnz.org/conf%2006/conference_06.htm

Organizers: C. Vieglais, B. Biggs, M. Bothwell, L. Chadderton, E. Edwards, C. Kilroy, S. Spaulding

International Conference on Harmful Algae

4-8 September, 2006 Copenhagen, Denmark

<http://www.bi.ku.dk/hab/>

Craig Cary

U. Waikato / U. Delaware

Managing the emergent bioinvasion of *Didymosphenia geminata*, a Northern Hemisphere benthic diatom threatening freshwaters of New Zealand

Christina Vieglais, F. Velvin, J. Randall, and A. Pascoe. Biosecurity New Zealand

Ecology Across the Tasman: Joint Conference of the NZ Ecological Society

28 August – 1 September, 2006 Wellington, New Zealand

Didymosphenia geminata and New Zealand's lotic food webs

Mark Shallenberg, K. Lister, and C. Burns. University of Otago, New Zealand

A fresh look at an invasive species, *Didymosphenia geminata*: chemical and structural analysis of the extracellular polymers

Michael Gretz, S.N. Kiemle, M.L. Riccio, T.R. Hungwe, H.M. Burger, M.D. Apoya, S.A. Spaulding, and D.S. Domozych.

Michigan Tech. University, US Geological Survey, and Skidmore College

Phycological Society of America Annual Meeting

7-12 July, 2006 Juneau, Alaska

The intersection of history and environment in diatom biogeography

Sarah Spaulding

US Geological Survey, Denver CO

North American Benthological Society Annual Meeting

4-9 June, 2006 Anchorage, Alaska

Didymosphenia geminata: a biosecurity incursion in New Zealand

Biggs, B.J.F., Kilroy, C. Jellyman, P., Blair, N., Clayton, J., Vieglais, C.

National Institute of Water and Atmospheric Research, New Zealand and Biosecurity
New Zealand

International Conference on Aquatic Invasive Species

May 14-19, 2006 Key Biscayne, Florida

A National Incursion Response to the Invasive Diatom, *Didymosphenia geminata*, in
New Zealand Freshwaters.

Christina Vieglais

Biosecurity New Zealand
